

Local member collaboration through chapters continues to drive awareness, education, and quality.

Your involvement will help shape our future and the lives of those we serve.

Starting a chapter is as easy as:

1. Get together with four professional colleagues/iaedp members in your area who would be interested in starting a chapter and serving on the local board. Find ten more people interested in a local chapter, and you've established interest! All that's left is the paperwork...

2. Send a letter of intent, statement of purpose, and application (along with a \$50 application fee) to iaedp Headquarters.
3. Begin the process of completing non-profit corporation papers, which is done with the guidance of iaedp Headquarters.

STARTING A CHAPTER

Since 1985 iaedp™ has served the professional community, providing education and promoting quality care through certification.

iaedp™'s mission is to bring together eating disorder treatment providers, across all disciplines, to collaborate and inspire one another. Chapters drive this mission on the local level – connecting members with local peer support, resources, and continuing education.

iaedp currently has over 20 chapters. We are adding more all the time, but if you don't already have a chapter in your area, why not start one?

Starting a chapter comes with many benefits –

- Recognition as an eating disorder professional and as a leader – locally, nationally, even internationally

- Support, networking, education, and the buddy referral system with local professionals
- Discounts on iaedp membership and symposium
- Co-branding with a prestigious organization – chapters benefit from the marketing power of iaedp
- Support and guidance from other chapter presidents and the Director of Chapters & Membership – powerful tools which not only help you run a chapter, but translate into running a practice as well
